Central Board of Secondary Education (CBSE)

TECHNICAL SKILLS

Languages

Python · SQL

Web

HTML · CSS · JavaScript · React · Flask

Tools

Streamlit · Git · GitHub

Interests

Machine Learning · Data Analytics · Full-Stack Development · Generative AI

CERTIFICATIONS & TRAINING

AI Algorithm Development with Python: Essentials & Implementation Oct 2025

Intel® Unnati Lab · Edulateral Foundation · GLA University

AI Mastery: Unlocking the Power of Artificial Intelligence Oct 2025

NEC Corporation India · Edulateral Foundation (Cert No: NEC1180)

Python Programming Course Dec 2025

Infosys Springboard

Generative AI Workshop Oct 2025

HCL GUVI

PROJECTS

EduMetrics Javascript · HTML · Flask · Python · CSS

- Built a student at-risk flagging analytics dashboard designed for college advisors.
- Developed a Flask backend with a risk scoring engine that analyses student performance data.
- Designed an interactive frontend with Recharts visualisations, stat cards, and a detailed student panel.

CarbonWise React · JavaScript · HTML · CSS

- Created a web-based lifecycle vehicle carbon footprint comparison tool deployed on GitHub Pages.

- Integrated an AI Carbon Advisor, Greenwash Detector, and a Community Board for user engagement.
- Focused on clean UI design to help users make environmentally informed vehicle choices.

HACKATHON PARTICIPATION

- Google Developer Groups (GDG)
- GL Bajaj Institute of Technology and Management
- MAC — University of Delhi (DU)
- KIET Group of Institutions, Ghaziabad
- IIT(BHU) Varanasi
